

# VISA Application Procedure

## General Information

### Students from countries outside the EU

If you wish to enrol at Masaryk University, you must apply for a long-term visa (recommended) or residence permit for the purpose of studies.

You have to file your application at the Embassy or Consulate General of the Czech Republic abroad, usually in your country of citizenship.

Applications cannot be filed in the Czech Republic.

Please be advised that the application process for a long-term visa or residence permit for the purpose of studies can take up to 60 days.

### Student Mode

To simplify the visa process for students from selected countries who have been accepted to study at universities in the Czech Republic, in 2017 the **Student Mode** was set up.

Students will be automatically placed after successfully passing the entrance exams to Masaryk University into an application for placing in the Student Mode.

Placing an applicant on the list of the Student Mode does not guarantee a positive response to the visa application.

If during the specified interview the student does not submit all the required documents they will automatically be removed from the Student Mode.
